Centrifugal Thermal Heat Transfer Pump
Speck TOE- MI Magnetic Drive Centrifugal Thermal Transfer Pumps are available to work in a variety of demanding industries where the movement of heated pumping media is required on a daily basis. Facilities with large baking and frying ovens, heated agitator and mixing tanks, flat glass production, solar power generation stations and ORC processes as well as the color and dye industry all have systems that would benefit from a Speck Thermal Centrifugal Pump.

Main Applications
- Oil Pumping
- High Pressure Pumping
- Boiler Feed Pumping
- Glass Manufacturing
- Leather & Rubber Manufacturing
- Thermal Oil Transfer
- Thermal Transfer Pumping
- Baking Industry Pumping

**GPM**  up to 375 GPM  
**PSI**  max. 145 PSI  
**TEMP**  hot oil up to 625° F  
**HEAD**  290 ft.
